Entrepreneur Online Ebook Volume I

The Purpose of this book.....

Really simple. This is more of a directory / guide to some great resources to save you time.

Volume I is just a small introduction of less than 30 resources but if you know anything about me there will be more!

In the end I know I don't have the answers to everything. But in this moment with the help of Twitter and tons of great bloggers and authors. I am presenting you with many solutions to at least one if not some of your challenges.

Online Ways to Organize Your Life

1. WhatYah! – Organize and create complete lists of your movies, games and TV shows and share them with your friends
2. TuneUp – Automatically cleans up and fixes your music collection, relabeling files, finding missing cover art, and even notifying you of upcoming concerts based on your collection.
3. PutPlace – Organize, store and backup all your digital stuff in one place.
4. Closet Assistant – A complete wardrobe management application that even includes an events calendar, so you know what events you need to dress for on a given day, and can plan accordingly.
5. Booktagger – Keep track of all your books, discover new books to read based on recommendations, keep lists of books, and even start an online book club.
6. LivingSocial – Organize your interests (restaurants, video games, books, TV shows, etc.) and share them with others.
